

B2:

The screenshot shows the Sophos UTM 9 Web Filter Profiles configuration page. The interface includes a sidebar with navigation options like Dashboard, Management, Definitions & Users, Interfaces & Routing, Network Services, Network Protection, Web Protection, and Remote Access. The main content area is titled 'Web Filter Profiles' and has tabs for 'Filter Profiles', 'Filter Actions', and 'Parent Proxies'. The 'Filter Actions' tab is active, showing a list of filter actions. The first action is 'Block Job search for A', which is a Blacklist mode. It has 'Blocked Categories' set to 'JobSearch' and 'Blocked Sites' set to 'for https://www.indeed.com/'. Other settings include 'Uncategorized sites are allowed', 'Spyware is blocked', and 'Antivirus scanning is deactivated'. The second action is 'Default content filter action', which is a Blacklist mode. It has 'Uncategorized sites are allowed', 'Spyware is blocked', 'Blocked file extensions' set to 'exe, msi, com, bat, vbx, hta, inf, jse, wsh, vbs, vbe, ink, chm, pif, reg, scr, cmd', 'Antivirus scanning' set to 'Single Scan', and 'PUA detection' set to 'deactivated'. The third action is 'Default content filter block action', which is a Whitelist mode. The interface also includes a search bar, a 'New Filter Action...' button, and a 'Find' button. The display shows 1-9 of 9 items.

| Action                              | Mode      | Blocked Categories | Blocked Sites               | Uncategorized sites are | Spyware is | Antivirus scanning | PUA detection |
|-------------------------------------|-----------|--------------------|-----------------------------|-------------------------|------------|--------------------|---------------|
| Block Job search for A              | Blacklist | JobSearch          | for https://www.indeed.com/ | allowed                 | blocked    | deactivated        |               |
| Default content filter action       | Blacklist |                    |                             | allowed                 | blocked    | Single Scan        | deactivated   |
| Default content filter block action | Whitelist |                    |                             |                         |            |                    |               |
